## ***French Civil Records Research***

French civil records represent a remarkably comprehensive collection stretching back to the 1700's and sometimes earlier. Access to records is generally straightforward and free. Finding family members can still be a challenge as the records are often not directly searchable.

Jim Stinecipher is an Environmental Systems Ph.D. student from UC Merced. He is a recent transplant to the Tri-Valley area and one of our newest L-AGS members. For the last decade, Jim has been interested in his family's history. However, after attending a 2015 family reunion, discovering his ancestors has become a much more earnest and personal endeavor. We are delighted to welcome Jim to our L-AGS family of passionate genealogists and family historians who embrace opportunities to share their knowledge and assistance.
