**COST:** No Charge - Visitors welcome

---

## Murder and Consequences – A Family Story –

This is a one-hour presentation of a family tragedy wherein two female family members were found guilty of the murder of an illegitimate newborn infant and were subsequently sentenced to death circa 1841 in northern England. Details of the research into this saga are presented as we follow the life of one of the women who is transported to a British penal colony in Van Diemen's Land, now called Tasmania. The saga of the ship's journey is totally reminiscent of the "Mutiny on the Bounty". The story collides with some major world history events and famous personalities that resonate up to the present day. Alert: Not a "How To" and not intended for anyone who might be squeamish or sensitive.

**Ron Gilmore** - With a strong technical background (a degree in Electrical Engineering and a Master's degree in mathematics), Ron pursued a career as a management consultant in IT with major assignments in Canada, USA and Europe. Retiring in 2010, Ron and Wendy bought a golf community home in Sun City Shadow Hills in Indio, CA. With generous amounts of spare time now available, Ron turned to genealogy for family investigations in Ireland, UK, France, Germany, and Canada. Ron has presented to a variety of genealogical societies in the United States and Canada. His favorite topic is Ireland.
