Fishing In Every Pond: Cousin Baiting

We will discuss the many ways to reach out to distant living cousins to help you expand your pedigree chart forward in time. You may find family treasures, photos, DNA test takers and information that will break down a brick wall. We will explore online trees, lineage societies, cemetery indexes, obituaries in newspapers, living people finder websites and social media.

Christine Cohen is a long-time member of the Whittier Area Genealogical Society (WAGS) and currently serves as the Program Director. In addition to WAGS, she is a member of the El Redondo Chapter of the Daughters of the American Revolution (Past 1st Vice Regent), the Society of Daughters of Holland Dames and the Association of Professional Genealogists.

Her interest in genealogy began in 1977 with the airing of the TV mini-series “Roots”. Her enthusiasm was piqued when she was given a typed pedigree chart, commissioned by her maternal grandfather, of her Dutch heritage from the New Netherlands in the 1650’s. She is a native Californian, a graduate of UCLA in Political Science and has recently retired to pursue my genealogy interest full time.
