We look forward to reading about your research in "Meet the Members" sometime this year.

AMERICAN INDIANS are identified on census schedules since 1870 but the name of the tribe and blood quantum was collected only in 1880 (on reservations), 1890, 1900, 1930. 1950 reservations), 1970 and 1980 (tribe, not blood quantum). Census for 1870, 1880 (special schedule for reservations), 1900 plus other records on Indians who maintained tribal status, are available at the National Resources Branch of the National Archives, and its regional centers. National Archives also have microfilm of Indian census rolls, 1885 -1940, see "Indian Census Rolls 1885 -1940" NARS pamphlet for additional information.

The Tribal Affairs Division, U.S. Bureau of Indian Affairs, Washington, DC 20245, will not provide lists of names, but they will search its records for verification of Indian ancestry if given tribe's specific name, name of the person and date and place of birth. (Pioneer Pathfinder, Sioux Valley Gen. Soc. July 1983 via Genealogical Association of Sacramento, Spring 1984)

A reminder from Judy William, Query Editor, to the members that we do have a free query corner. This is one avenue of searching that is available and not many are using. You can never predict the chance of that certain someone seeing your query and having information for you. Copies of our Tracer are scattered over the country, not just locally. The first thing I check when I read a quarterly is the queries as I'm sure it is with many others. So why not take advantage of this opportunity to aid you in your search. (see page -59- for more information)

"To cherish the memory of our ancestors is a plain dictate of piety. Only those who care not for their destiny, can be careless as to their origin. He that forgets his ancestors is either stupid or wicked, or both."

Society members are encouraged to carpool over with other members. This is a chance of a lifetime because the conference is being held in our area. Look at it as a \$75 investment in your future research!

Attention All Members!

Please feel free to submit data that you would like to share with other members. The Tracer staff appreciates your help.

February Book Sale..Plus

Thanks to our hard working Ways and Means Committee, Marge Harter, Barbara Dittig, Barbara Barton, Virginia Moore and June Duffey for a great "Book Sale..Plus" on February 27. A lot of our old genealogical material found its way to other people's book shelves, a few houses in town have Spring wreaths on their doors, we are sending each other notes on genealogical logo stationery and are sporting colored buttons reading "I'm hooked on genealogy!" Drop by the rate table at each meeting for other items wilable.

MEET THE MEMBERS Marilyn Toole Fullam

My mother was very curious about her father's side of the family—he died when she was six. So I started in September of 1983 and now am hooked

n genealogy.

I was born in San Francisco on March 4, 1936. My husband, Tom Fullam was also born in San Francisco on February I, 1935. We were married in Reno, Nevada on April 21, 1956 and have three children-all born in San Francisco. We have lived in the Bay Area all of our lives except from 1973-1983 when we lived in Mi-Wuk Village in the Sierras.

My mother, Marie Genevieve Rudolphus, was born in Sacramento, California April 12, 1906. Her mother, Mary Ellen Geary was born in San Rafael, CA, in 1876 and died in San Mateo in 1942. Mary Ellen's father was Eugene Geary born in County Cork, Ireland in 1845. He was removed from Ireland by the British and came to San Francisco in 1871. He lived in San Rafael 1873 and San Francisco 1885 and was in Colma in 1902-1917 where he bred and raced greyhound dogs. Eugene's mother's name was Hagerty. His wife, Mary Ellen's mother, was Catherine Driscoll, born in 1852 and died in San Rafael in 1878. My mother's father was Albert Rudolphus born in New Orleans on March 15, 1856 and died in San Francisco on February 8, 1910. Albert's parents ere Peter Rudolphes born in Sweden 1812/1813,

ere Peter Rudolphes born in Sweden 1812/1813, served in the U.S. Army and died in New Orleans in September 1864, and Anne Jane McKenna born 1830 in County Cavan, Ireland. Albert Anthony's mother was Mary McGivney born in Boston about 1862 and died in San Francisco about 1898.

My father, Alexander Rudolph Toole, was born in Latvia on March 17, 1907 and died in Sacramento, CA on November 14, 1979. His parents were Karl Tuul (the Latvian spelling) and Anna Stahlberg. Karl was born in Estonia and died in Latvia in December 1909. Anna was born October 3, 1867 in Latvia. After her husband died her brother who was a sailor and lived in San Francisco, sent for her and her three children (she had nine but only three lived). They left Libau on the "Rossija" on August 30, 1910. The trip consisted of twelve days on the ocean, three days at Ellis Island (where an immigration officer changed the spelling of their name from Tuul to Toole), and six days on the train from New York to San Francisco. Anna died in San Francisco on March 14, 1912. Her parents were Ernest Stahlberg and Caterina Inge.

Since I was doing my side I thought I'd do my 'sband's side also. Tom's father was George Iliam Fullam born in Neenah, Wisconsin, November 16, 1899 and died in Milbrae, CA in

1977. George's father was Thomas William Fullam born in Wisconsin July 1870. Thomas' parents were Phillip Fullam and Ellen, both born in Ireland about 1830. The Fullams lived in Neenah, Wisconsin by 1860 and moved to Buckley, Washington between 1900-1910 and then to San Francisco in the 1930's. George's mother was Anna Landig born in Germany September 1871 and died in San Francisco in 1950. Her parents were Thomas Landia and Caroline Sheffler-both born in Germany and coming to the U.S. 1875. My husband's mother was Gladys Agnes McLaughlin born in San Francisco in August 1900 and died in Burlingame in 1975. She was placed in Mt. St. Joseph's Orphanage in 1904. Her parents were William Hugh McLaughlin and Annie Burns. William supposedly fell off a ship off Alaska and drowned.

Larry Barr

My name is Larry Barr and I was born May 21, 1936 in Mason City, Iowa. My wife's name is Carolyn and we have four children: Debbie, 25; Terri, 23; Kevin, 21 and Craig, 18. My parents, Richard J. and Verone U. Logue Barr were both raised in Mason City, Iowa - 1913 - 1943.

My father's line include the following surnames: Boyd - Cero Gordo County Iowa and Vermont; Boud -Le Suer County Minnesota and Hamilton County Iowa; Frank - Howard County Iowa and Prussia.

My mother's line include the following surnames: Logue - Cero Gordo County Iowa and Worth County Iowa; Tallockson - Worth County Iowa and Norway; Abramson - Worth County Iowa and Norway; Kirk - Worth County Iowa and Ohio.

I've been able to trace my father's line from lowa, Illinois, Indiana and Ireland and Prussia. My mother's line goes from lowa to Norway. My wife's family has already been done by one of her uncles and goes back to the Royalty of Europe.

I've been at this for 3 months now and am really enjoying myself. It's all been very rewarding to me as I never knew my grandparents. Now I know almost all about them and have pictures to go with the names. Tracing my heritage has become an obsession, a very self-satisfying obsession, not only for my own enjoyment but also for my children.

MEET THE MEMBERS (continued)

Linda Kay Powell Garrett

My name is Linda Kay Powell Garrett. I was born in Wood River, III. (Madison County) on January 17, 1950 to Joseph and Barbara Cook Powell. I've been married to Jimmie Garrett from Henryetta, Oklahoma since 1969. We both grew up in Livermore attending local schools. We have a boy, aged 14 at East Avenue School and a girl, aged 11 at New Covenant Christian Academy.

My interest was initiated when I found out that my mother's paternal grandmother - Celia Harvey Cook - was a member of DAR in 1915. I was able to get a hold of her application papers which names her great grandfather as a Patriot in Conn. in 1780. His name was Elijah Towner.

In December I received by inter-library loan a book called "The Brenneman Family History" by A.H. Gerberich. This book begins with Melchior Brenneman, the exile, ca 1631 from Switzerland who was held prisoner in the Castle of Thun for his Mennonite beliefs and all his possessions confiscated in 1659. He fled with his family to Germany where a Mennonite Community in exile existed. His son, Melchior was the first of my line to come to America. Tradition gives his arrival as 1709. There were three more generations of Melchiors who lived in Pennsylvania. Anna Brenneman, b. 1807, was married to Henry Miller. They migrated first to Ohio and then to Illinois, and are buried in Bond County. Their 10th child, Malinda married George Washington Powell, a Civil War veteran. He was my father's grandfather. I have many lines married into this Brenneman line that I am now researchina. Linda Garrett

A census taker comes to your door. Among her questions, he asks you how many children you have and what are their ages. You reply, "Three, and the product of their ages is 36 and the sum of their ages equals the house number." Far from considering you a wise guy the C.T. looks up at the house number, pauses and tells you that's not quite enough information. You say, "The oldest one has red hair." The C.T. says, "Thank you, I now know the ages of your children." What are they? (for answer call submitter, Barbara Dittig, 447-2701))

Kansas

Kansas was a desert Passed out by word of mouth. Wintery blizzards from the North And hot winds from the South. You couldn't make a living there because of wind and drought. They took me in to Kansas it was no act of mine, Missouri chills and fever All that was left behind. They came in covered wagons And brought along the cow, Bread and milk and butter was soon our daily chow. They worked hard to make a living And soon began to gain. When they turned the Prairie into fields of Goldn grain. Their efforts were augmented by riches of the soil, And in later years by the scope of Kansas oil. Of all the welth that Kansas has to give Its greatest assett by far Is a healthy place to live. I've lived here quite a while I do not care to roam. I'll live and die in Kansas For it is my happy home.

FEATURE Creative Uses For Sharing Your Genealogy

If you would like an extra special gift, you might consider trying this idea. We were giving my brother a surprise 50th birthday party and I wanted to do something special instead of the usual socks or wallet.

The only thing different I could think of was something to do with genealogy. Margaret Fazio was over and I was telling her that I would like to do a poster collage with his life in pictures but I couldn't afford to have all my old pictures professionally copied. She suggested copying them on a Xerox. Well, that started all the ideas. I took some old yellowed pictures (48 years old) down to Print-It and tried them to see how they would work-beautiful! The next step was selecting pictures to represent special events over the last 50 years—this was the hardest part. After I had pulled quite a few, I selected a 5x7 picure when he was 10 years old to be the center (Xerox coopy). Then I started placing some of his school pictures in a circle around this one, cutting the pictures so all would overlap with just the part showing that I wanted. The good part was if I goofed, I could go to Xerox and get another one. I did this until my poster board was completely covered. A 1934 half-dollar was put in to represent his 50 years and to show his birth year. The poster board was cut to fit a 16x20 frame before I started gluing them on. A glue stick worked perfect with no bubbles or lumps.

It turned out that I used a combination of types of pictures—Xerox, black and white, and color prints. I was afraid it would be a jumbled mess, but it wasn't. I turned out beautiful. I could use every little space to "stick" another picture. After all the pictures are laid like you want them, don't give too big a sigh of relief until they are glued down. My niece and I did and some of our pictures fluttered out of place. Also, I took a black ink pen and wrote dates inconspicuously on some of the pictures—at least the very old ones.

Some of the pictures I used were: our parents (who started it all), house where born, first pair of overalls, school pictures, brother and sisters, entering Navy, first new car, first new house, wedding picture, each child, each place they lived, etc.

I wasn't sure how he would like this kind of gift, but when I handed it to him, I knew by his face it was OK. Later when everyone was eating, talking and moving around I looked back and he had picked it up again and was still sitting there looking at it.

This was a gift I was very proud to give! (Submitted by Judy Williams)

Leute ANDKARTE UND PLANE

I did think it was about time that I ran a hart or we would have to stop calling this andkarte UND Plane. I wish to share with you in idea that I have used for several years with my students when we were studying our ethnic ackgrounds.

I have laid these out in squares because it was that much easier for fifth and sixth graders o perceive 1/2, 1/4, 1/8, 1/16, usw. When olor coded, it really gives a clear picture of

ur ethnic background.

It would be very simple for us to form these n circles. What is really interesting is to form them as hearts or shields and decorate them not nly with colors but as stripes or squares.

Something like this can create interest at eunions and done in different media (ceramic, rood, foil, paper) can make interesting gifts.

Election News of 1844

Barnburners and Hunkers

If your ancestors were from New York they may have been a Barnburner or a Hunker. The curnburners was a name given by the Hunkers to the Antislavery faction of the Democratic party in New York from 1844 to 1848. The name has reference to the groups indifference to all issues but slavery, which suggested the conduct of the man who is said to have burned the barn to rid it of rats. They opposed James K. Polk as presidential candidate in 1844, and in 1848 they nominated Van Buren who was later nominated by the Free Soil Party. The Barnburners in part joined the Free Soil Party, but many known later as the Soft-Shell Democratic, or just the Softs, returned to the Democratic ranks.

The Hunkers, an insolent name of uncertain origin given by the Barnburners to the proslavery section of the Democratic Party in New York from 1844 to 1848. They supported Polk in 1844 and after his election were given most of the offices. After the 1848 election this group was known as the Hard-Sell Democrats or just Hards. From Oakland To Hearst

by Dixie Newbury

If you had been traveling on the Western Pacific train from Oakland up through the scenic hills of Niles Canyon, then into the Amador Valley, you would have come to a rustic little station called "Hearst." Only a special invitation would have allowed you to stop here because this was the stopping place for guests going to the Hacienda del Pozo de Verona--Mrs. Hearst's Castle.

Located in the hills overlooking the Amador Valley's rich agricultural lands was the splendid home of Mrs. Phoebe Apperson Hearst and her husband George, a U.Ş. Senator. The home was designed by the well-known architect, Julia Morgan who also designed the "other" Hearst Castle.

The estate covered 450 acres and was quite self-sufficient. It included kennels, barns, an electrical power plant, manager's home, orchards and gardens. The home, with it's many turrets and picturesque battlements, was built around a patio in the center of which was the pozo, or well, of Verona. The furnishings might best be described as ecletic—painting, statuary, great collections of Indian baskets and rugs, tapestries, and elegant furniture. Here the Hearsts entertained the prominent and influential people from around the world in the early 1900's.

The grounds were in keeping with the beauty of the home. Acres of flowers and lawns surrounded the many buildings, and off in the distance was a splended view of Mt. Diablo.

Built in 1896, very little remains of the once great estate. It is now the location of the Castlewood Country Club.

DISCOVERY TIME

PLAN A WEEK OF GENEALOGICAL DISCOVERY. Come early! Discover Wednesday's Pre-Conference Activities — research tours; hospitality room; spouse programs; sight-seeing; fascinating exhibits; informal sessions like Sharron Ashton & Lynn McMillion on Indian records; Kip Sperry on Ohio & Willard Heiss on Quaker records —— all this while Conference head-quarters buzzes with meetings of trustees, councils, and committees.

DISCOVER THE DYNAMIC CONFERENCE PROGRAM. New insights into genealogy, the joy of meeting other searchers, uncounted pleasures of learning, and at Friday's elegant banquet in the historic Garden Court you will DISCOVER THE DELIGHT OF HEARING LOUIS L'AMOUR —— entertaining lecturer, historian, author of over eighty books, traveler, and raconteur...

AND FINALLY, DISCOVER SAN FRANCISCO —— its storybook setting, artistic treasures, its fascinating history, wonderful restaurants, incredible sights, but best of all, its enchantment...!!!

Mon-members are also invited to attend....

WANTED: SURNAMES YOU'RE RESEARCHING! FOR CALIFORNIA'S GOLD REGION INDEX!!

IF YOUR ANCESTORS LIVED IN ANY OF THE FOLLOWING EXISTING COUNTIE

IF YOUR ANCESTORS LIVED IN ANY OF THE FOLLOWING EXISTING COUNTIES PRIOR TO 1940, YOU ARE INVITED TO PERMANENTLY LIST THEIR SURNAMES IN THE, YET TO BE PUBLISHED AND INTERNATIONALLY DISTRIBUTED "GONE WEST" INDEX OF CALIFORNIA GOLD REGION SURNAMES:

ALPINE EL DORADO MERCED **PLUMAS STANISLAUS AMADOR** FRESNO SACRAMENTO MONO SUTTER BUTTE **MADERA** NEVADA SAN JOAQUIN TUOLUMNE **CALAVERAS** MARIPOSA PLACER SIERRA YUBA

Note: These are not strict boundaries and may also include applicable settlements several miles outside county lines but still within the general region.

The "GONE WEST" INDEX will be an internationally used reference for family names associated with California's major gold rush region between the years 1840 (when the West became "a place to move to") and 1940 (prior to the war-related uprootings and marking the end of the extensive "Dust Bowl" migration).

A non-profit project of the TUOLUMNE COUNTY GENEALOGICAL SOCIETY, the "GONE WEST" INDEX has a dual purpose: To provide Eastern and Western genealogists alike, a means of sharing family records on common ancestors that had "GONE WEST" during the first one hundred years of migrations to California's major gold region; and to encourage membership and support of genealogical societies located within this important migratory region. When compiled, the "GONE WEST" INDEX will be mass-mailed free to every known genealogical society in the United States and also many in Canada and Mexico. Full permission will be granted to duplicate in any number, or to publish in upcoming newsletters, quarterlies and reference books throughout the world, providing a copy is donated to the Tuolumne County Genealogical Society Library.

SIMPLE CRITERIA FOR LISTING SURNAMES

1. All persons submitting surnames for inclusion in the "GONE WEST" INDEX should be associated with a genealogical society located within California's major gold region—defined here as all the area in, and within close proximity of the previously indicated counties. You must designate a society within this region to which all inquires concerning your surnames can be referred. Personal names and addresses can not be listed in the "GONE WEST" INDEX, only an assigned code-number designating your society.

2. All surnames submitted must be typed in a vertical column, double-spaced and arranged in alphabetical order. Listing extremely common names (such as Smith, Johnson, Williams, Brown, Jones, Miller, etc.) is highly discouraged unless you have extensive information on the family line, in which case you can indicate so by adding an "asterick" (star) just after the surname. Please proofread all your spellings!

3. With both your name and address AND your societies' name and address (including county) on your list, make two copies and send one to your society (for their "Surnames Being Researched" file) and one to us for inclusion in the "GONE WEST" INDEX. Please include a donation of 20¢ per name (postage stamps ok) to help with printing and postal costs. We wish you success —

The "GONE WEST" INDEX Committee

QUERIES

The Livermore Roots Tracer is very happy to announce that we have a free Query Service for its member-subscribers. There will be a charge of \$1.00 (prepaid) for each query for nonmembers. The following rules have been made to insure that all of your queries appear promptly and accurately.

No more than three queries per person per issue.

Please submit each query or queries on a separate 8½" x II" sheet of paper (typing paper size). This eliminates the problem of losing queries written on odd-sized pieces of paper or being misfiled.

Please type or print all queries. We want the queries to be accurate, and to insure this we must be able to read the material you submit.

Please submit queries worded exactly as you wish to have them appear in the Tracer. The Query Editor will not be able to interpret a long description of a problem and have it say what you would want it to say.

Please keep the query to 50 words or less. The word limit is there to insure that there's space in each issue for all of the queries submitted.

Please state your query clearly. If we cannot understand it, chances are other members won't be able to either. If we try to clarify your query, we may confuse the situation even further. Remember, you're familiar with your family; our readers aren't. You must make us understand exactly what you want.

Please do not abbreviate. Spell everything out, and let the editor worry about abbreviating.

Be sure, when submitting queries, to include your full name, address and ZIP code. Remember, you want to hear from people

There is a charge of \$1.00 (prepaid) for each query for nonmembers.

Individuals who have general questions of a genealogical nature may submit them for the "Miscellaneous Query" Section. Please abide by the rules set for the regular Query Section.

We will insert queries in order of arrival until our allocated space is filled. Thank you in advance for your cooperation. Please send all queries to: Mrs. Judy Williams, Query Editor, 1944 Mars Road, Livermore, CA 94550.

"This is your grandfather when he was an incorrigible brat. Here he is when he was a young whippersnapper. That's him as a rebellious youth, over here as a middle-aged roue. And here he is as an old curmudgeon."

The westward movement of the population made the construction of canals of primary importance. Railroads had not been brought this far west and the new populations had to get there goods and freight to the closest waterway, Lake Erie. Hence the names of the canals were derived from the river from which it originated and the destination. There were many; Miami & Erie, Ohio & Erie, Chesapeake & Ohio were just a few. We have members whose families lived in these areas or worked on these canals and we have identified two for this issue.

Miami and Erie Canal Margaret Fazio Grand Lake, 17,500 acres originally and now about 19,000 acres due to erosion of the north shore, lies mostly in Mercer County, Ohio. It was built to store water and to keep the Miami and Erie Canal at proper levels by means of a feeder canal leading from the east shore. Construction was started in 1837 and completed in 1845 at a cost of approximately \$600,000. Until the building of Hoover Dam it was the largest manmade lake in the world.

Approximately 1,700 men were employed in constructing the east and west banks. Their wages amounted to 30 cents a day plus one jigger of whiskey and the day's work was from sunrise to sunset. The workmen lived in shanties while they worked on the lake but many of them remained after the job was completed to take up farm land in this area.

Chesapeake and Ohio Canal

June Duffey

Capt. Peter Stake b. 1765 - d. 23 May 1822 Capt. Stake was canal boat captain of first ship to navigate the C. & O. Canal ("The Maryland") and carry whiskey and flour to Georgetown thru the Great Falls in Georgetown.

From a list of employees of the Chesapeake & Ohio Canal Company of 1842 & 1845, the name Elie Stake was employed as a collector of tolls, at Lock #44 at Williamsport, Pennsylvania. In 1842 he earned \$300 a year. The canal opened in 1830 and ceased to operate in 1924. It ran along the Potomac River and was used for shipping and commerce because the Great Falls at Georgetown (now Washington, D.C.) were difficult for ships to negotiate.

Lock No. 44 (Williamsport) was one of 14 locks to be extended (or doubled in length) so that two canal boats could be locked through at the same time. Eleven of the locks were extended downstream below the existing lock. Only a windrow of stone remains as does the moulder lock gates at the upper end.
